PROFESSIONAL SUMMARY

Adaptable and quick-learning Computer Science postgraduate with a solid foundation in programming and web development, built through academic coursework and hands-on project work. Comfortable picking up new tools and technologies independently, with strong problem-solving skills and attention to detail. Eager to bring a proactive, collaborative approach to an entry-level software development role and grow continuously within a team environment.

SKILLS

Programming Languages: Python, Java, C

Web Technologies: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, Flask

Database & Tools: MongoDB Atlas, SQL Server, Render, Git, GitHub, VS Code

Core Concepts: Computer Networks, Object-Oriented Programming (OOP), DBMS, REST APIs

Soft Skills: Problem-Solving, Communication, Team Collaboration, Adaptability

EDUCATION

Master of Science, Computer Science 2024 – 2026

Bhavan's Vivekananda College, Hyderabad — CGPA: 8.8

Bachelor of Science, Computer Science 2021 – 2024

Kakatiya Government College, Hanmakonda — CGPA: 7.63

Intermediate — MPC (Maths, Physics, Chemistry) 2019 – 2021

Sai Ram Junior College, Thorur — CGPA: 8.9

Secondary School Education (SSC) 2018 – 2019

ZPP Secondary School, Haripirala — CGPA: 8.7

PROJECTS

Women Safety & Mental Health Support Web Application — MaaStri

Technologies: HTML5, CSS3, JavaScript, Python (Flask), SQL Server

- Developed a full-stack web application to enhance women's safety and mental well-being, supporting real-time use by end users.
- Implemented secure user registration and login functionality with personalized user dashboards.
- Built a trusted emergency contacts feature and a Women Diary module for emotional tracking and support.
- Designed a responsive front-end UI and managed backend operations and data storage using Flask and SQL Server.

ComfortLearning — Full-Stack E-Learning Course Marketplace

Technologies: HTML5, CSS3, Node.js, Express.js, MongoDB Atlas, bcrypt.js, express-session

- Built a full-stack e-learning marketplace enabling users to browse, purchase, and manage online courses.
- Designed and implemented 10 REST API endpoints for user authentication, course listings, and transactions.
- Implemented secure authentication using bcrypt.js for password hashing and express-session for session management.
- Integrated MongoDB Atlas for persistent data storage and deployed the application live on Render.

TaskFlow — Task Management Full-Stack Application

Technologies: React.js, Vite, JavaScript, HTML5, CSS3, Python (FastAPI), RESTful API, MongoDB Atlas

- Developed a full-stack task management web application for creating, organizing, and tracking tasks and projects.
- Implemented user authentication with login, signup, forgot password, and password reset functionality.
- Built a responsive React.js frontend and integrated it with FastAPI RESTful APIs for backend operations.
- Integrated MongoDB Atlas for persistent storage of user, project, and task data.
- Deployed the application on Render and managed source code using Git and GitHub.

CERTIFICATIONS

- Distributed Systems — NPTEL, Jul–Sep 2025
- AWS with DevOps — Brain O Vision Solutions, Aug 2025
- The Rise of Generative AI — Apr 2025
- Full Stack Web Development — S&P Global Foundation, Jun–Sep 2024
